Distance Rate Time Activity

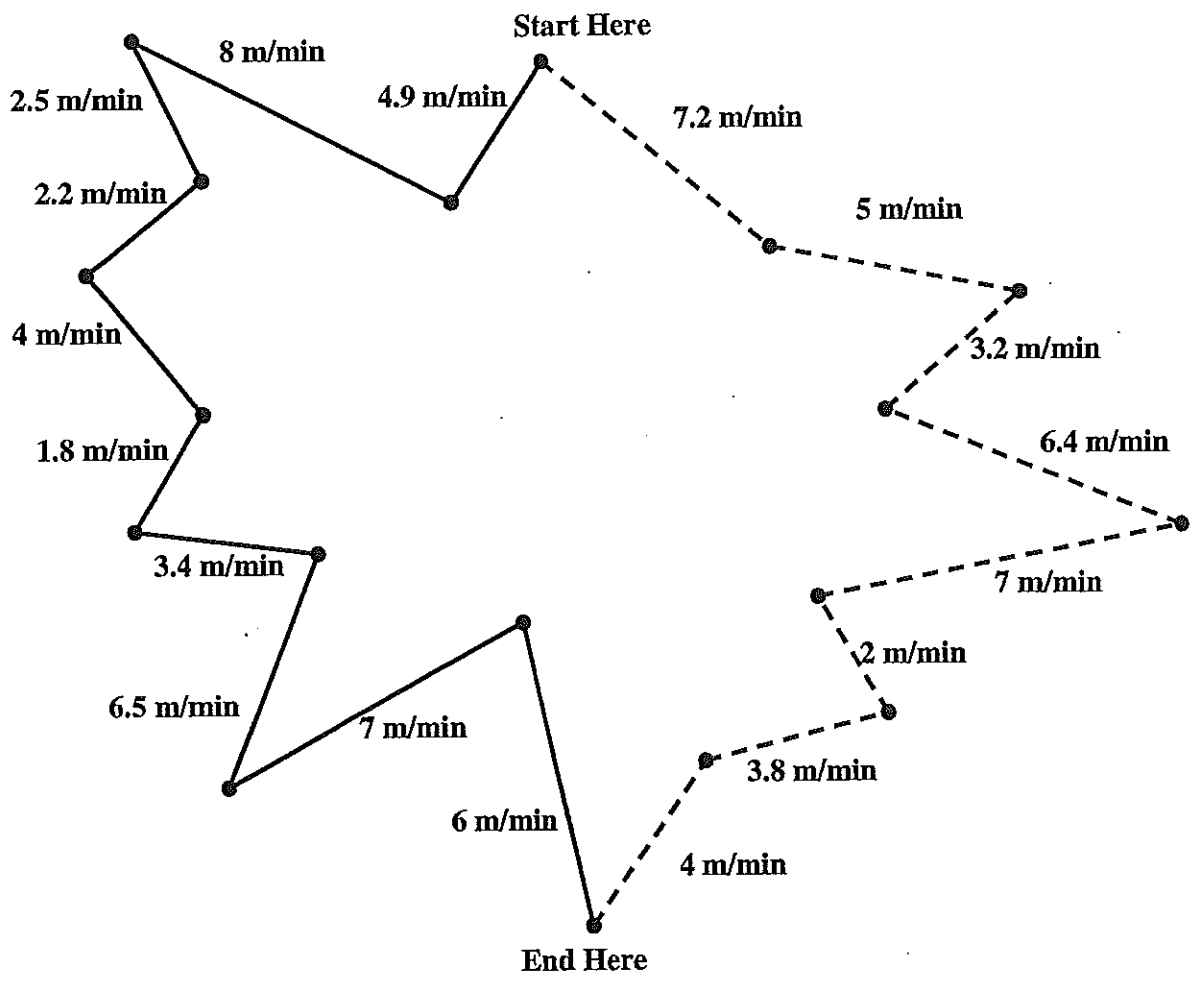

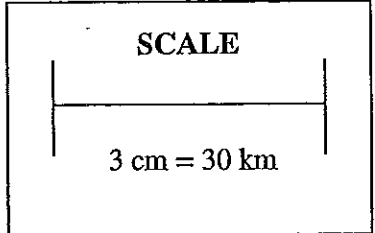

Susie and Anna are having a debate. Susie believes that route A is faster than route B. Anna believes that route B is faster than route A. Settle Susie's and Anna's dispute by determining which route is faster.

Clearly, route A is faster!

You're wrong! Route B is faster!

----- Route A
_____ Route B

Using the formula, distance = rate x time, answer the following questions below.

1.) What was the travel time in minutes for route A?

2.) What was the travel time in minutes for route B?

3.) Who was correct?

4.) How much faster is this route than the other?
