

9.2.2: Ratio Grids

Grade 7

Please follow the steps given below carefully:

- i. Each group member will choose and complete one question.
- ii. Shade the grid on the right so that the ratio of shaded squares to total squares is the same as the ratio in the grid on the left.
- iii. Write the ratios of shaded squares to the whole number of squares beside each grid.
- iv. Explain your thinking to your group members as you go.

<p>1a.</p> 	<p>1b.</p> 
<p>2a.</p> 	<p>2b.</p> 
<p>3a.</p> 	<p>3b.</p> 
<p>4a.</p> 	<p>4b.</p> 

9.2.4: Equivalent Ratios Practice

Grade 7

Working with a partner, use equivalent tables to determine which cookie pans have the same ratio of chocolate chips to cookie.
