Name _____

Date _____

Period _____

Watch the video from my website. You can find it under Unit ~~4~~⁵, under "More Videos." You'll know you have the right one because it will be the first one and it is called "Real Number Properties" and it is 9:43 minutes long.

While you are watching the video complete the questions below. Once you have finished, proceed to the worksheet you were given in class today. Complete the worksheet and then you will be prepared for class tomorrow!

(if you were given one)

1) Commutative Property: key word: _____

- Works for which operations?
- Give 2 examples:

- Give one example and one non-example of the commutative property using words.

2) Associative Property : Keyword: _____

- Works for which operations?
- Give 2 examples:

3) Identity: Key word: _____

- Addition example:
- Multiplication example:

4) Inverse: Key word: _____

- Addition example:
- Multiplication example:

5) Transitive (you do not need to know this one!)

6) Distributive Property

- Example:

Now give 6 examples of the properties below (from the video):
