

Name: _____

Date: _____

Representing Data Graphically

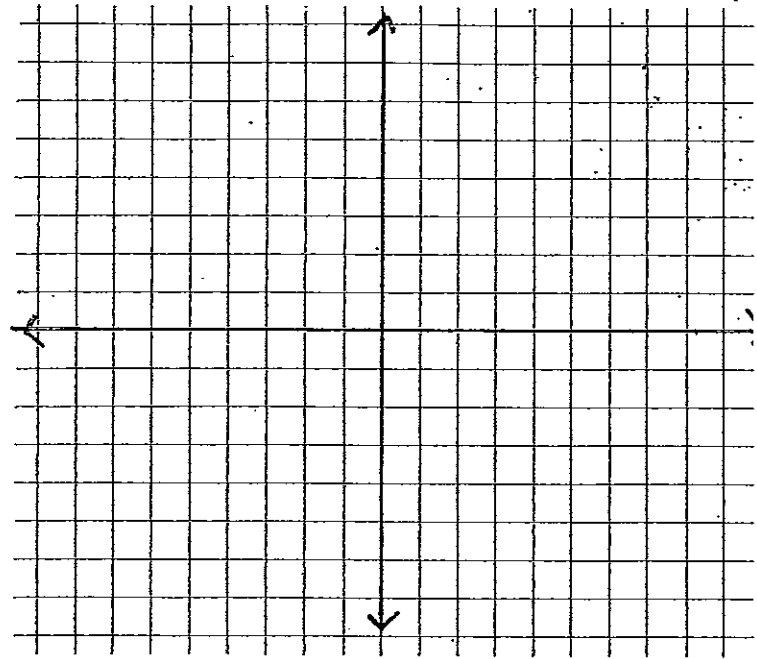

① $2 - x = y$

Make a table of values:

x				
y				
(x,y)				

What kind of slope does this line have? _____

Plot your points and connect them:

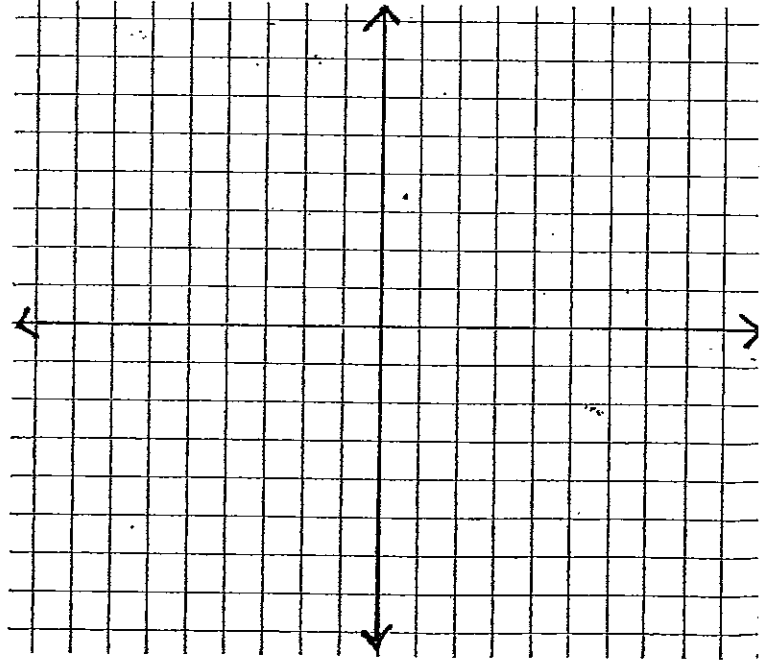

② $x + 2 = y$

x				
y				
(x,y)				

What kind of slope does #2 have? _____

Plot #2 and #3 on this coordinate

③ $x + y = 4$

x				
y				
(x,y)				

What kind of slope does #3 have?
