

# MEDFIELD ICE CREAM SURVEY

	Vanilla	21.0%
	Chocolate	33.0%
	Strawberry	
	Raspberry	4.0%
	Peach	7.0%
	Neopolitan	17.0%
	Other	6.0%

- 1) When you add together all the percents in a circle graph, what do you get?
- 2) What percent of the people surveyed chose Strawberry as their favorite?
- 3) 700 people were surveyed about their favorite ice cream, how many chose Vanilla? (Use a percent proportion)
- 4) Using the information given in #3, how many people chose Other? (Use a percent proportion)
- 5) How could you represent the number of people who chose chocolate with a decimal?
- 6) Out of 700 people how many chose Neopolitan and Chocolate?
