

Mixed Practice with Area and Volume

Find the area of the shaded region.

3. Find the surface area.

4. How much fencing is needed to fence both sides of a circular walk as shown?

$\pi = \frac{22}{7}$

5. What is the area of a rectangular flower bed with length of 5 m and width of 1.6 m?

Find the volume.

8. A dress pattern requires a triangular-shaped piece with a 10 in. base and an 18 in. height. Find the area of the piece.

9. A water trough is half of a circular cylinder with a 6 ft. radius and a 3 ft. height. Find the volume. $\pi = 3.14$.

10. A doghouse is a cube with sides of length 5 feet. How much wood is needed if it does not have a floor? What is the volume?

11. A nightstand has a base $1\frac{1}{2}$ ft. by 2 ft. and a height of 3 ft. How much space does it need on the floor? What is the volume?
