

Name _____

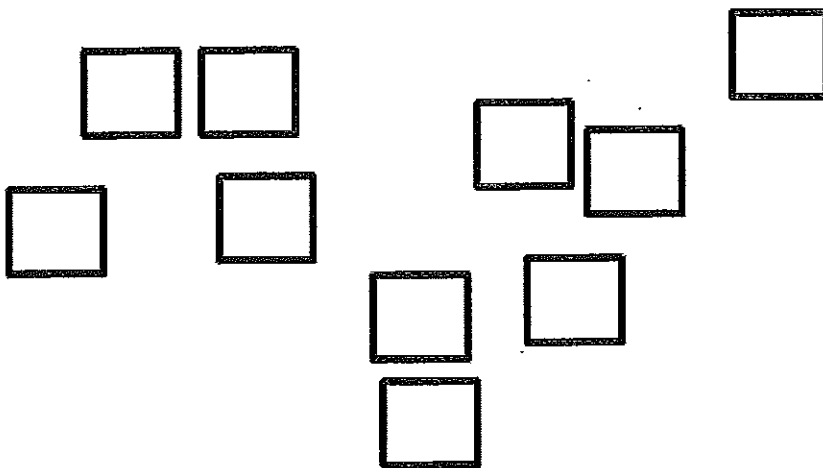

Bag of Cubes

Ten cubes are in a bag and you are randomly choosing a cube:

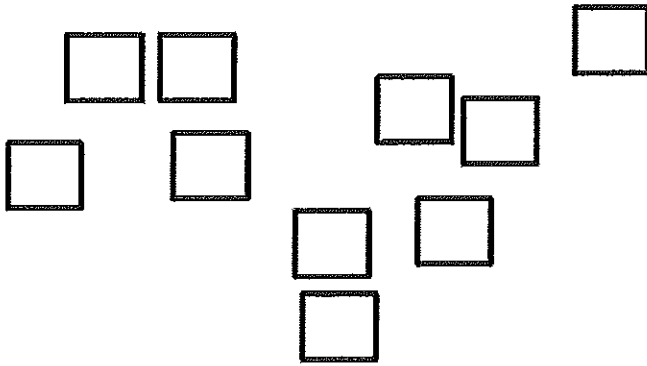

1. Color the cubes below so it would be equally likely to choose a blue or a yellow cube.

2. Color the cubes below so it would be likely but not certain to choose a blue cube from the bag.

3. Color the cubes below so it would be unlikely but not impossible to choose a blue cube from the bag.

4. Color the cubes below so it would be impossible to choose a blue cube from the bag.
