Solve any equation in the top block and find the solution in the bottom block. Transfer the word from the top box to the corresponding bottom box. Keep working and you will spell out a fission story.

What Is The Difference Between A Yam and a T.V. Announcer?

THE ANSWER TO THIS IMPORTANT QUESTION IS WRITTEN IN CODE AT THE BOTTOM OF THE PAGE. TO DECODE:

Solve any equation below. Each time the solution appears in the code, write the letter of that exercise above it. Keep working and you will discover the answer to the title question.
