## What to Study $=$ Unit (5) Solving Equations

## Accelerated

1) One-step equations (2.4, 2.5)
2) Inequalities and graphing them (2.9)
3) Two-step equations (4.1)
4) Multi-step equations (4.2, 4.4)
5) Equations with variable on both sides (4.5)
6) Combining Like Terms and equations
7) Distributive Property and equations
8) Translating to Algebra
9) Word Problem: 2 unknowns and 1 variable
