Relating Scale Drawings to Ratios and Rates

Use the following figure on the graph for problems 1 and 2.

- 1.
- a. If the original lengths are multiplied by 2, what are the new coordinates?
- b. Use the table to organize lengths.

| O3C tite table to a Paris | | T |
|---------------------------|---|---|
| Actual Picture | | |
| Lengths (in units) | | |
| New Picture Lengths | - | |
| (in units) | | |

- c. Is the new picture a reduction or an enlargement?
- d. What is the constant of proportionality?

- 3. If the original lengths are multiplied by $\frac{1}{3}$ what are the new coordinates?
- Use the table to organize the lengths.
