- 1) Mr. Drivegood's Car Clinic is having a sale – 10% off on brake jobs, 15% off on lube jobs, 20% off on oil changes, 25% off on wheel alignments, and 50% off on car washes. The sign outside the shop reads "120% OFF ON AUTO SERVICES." Is the sign accurate? Explain.
- 2) At Bali High School, the student government raises money for its activities by selling magazine subscriptions. If the students receive 18% of the total sales, how much money will they raise by selling \$4380 worth of subscriptions?
- 3) What percent of the area of the square is inside the circle?
