Date: _____

the Coordinate

1

plane...

① Match the ordered pair with its corresponding point. IDENTIFY what quadrant the point is in.

(a) $(-4, -1)$

(d) $(-2, 8)$

(b) $(-5, 0)$

(e) $(0, -3)$

(c) $(6, 5)$

(f) $(-1, -7)$

② Plot the points on the coordinate plane. Then connect the dots to form a polygon.

(a) A $(-2, 2)$ B $(-5, 5)$ C $(-8, 2)$ D $(-5, 5)$

What polygon did you create?

(b) M $(2, 4)$ N $(5, 7)$ O $(8, 6)$ P $(5, -3)$

Q $(3, -2)$

What polygon did you create? _____
